Re : DCivitas – Right Beginnings collaborative partnership for 2021-2022

Dear Leonard A. Upson (Tony)

We are pleased to confirm that Right Beginnings, Inc. is one of the nonprofit organizations that DCivitas looks forward to working with for the 2021-2022 school year.

Since its formation in 2014 by undergraduate students at Georgetown University, DCivitas has developed creative consulting solutions and connected nonprofits in the greater Washington area to valuable resources. Our work focuses on community outreach, sponsorship, and organizational development. A combination of *civitas*, Latin for community, and D.C., DCivitas strives for local community impact.

**Our Mission:** DCivitas provides pro bono consulting services for nonprofits in the greater Washington, D.C. area focused on community and human development, allowing organizations to concentrate their efforts of implementing effective and dynamic solutions.

**Our Vision:** DCivitas envisions a world in which nonprofits have access to the resources and business strategies they need, allowing them to fully devote themselves to serving their respective communities. Ultimately, DCivitas aims to positively impact the D.C. community.

Through our ongoing discussions with Right Beginnings we understand our goal is to assist in developing various funding opportunities. This will help provide Right Beginnings the resources to expand the programs and services offered to women victims of domestic violence who are residents of the District of Columbia, possibly including the opening and operation of a transitional housing facility.

We look forward to working together throughout the coming year with a mutual goal of expanding programs and services to women victims of domestic violence who are residents of the District of Columbia.

DCivitas
